* when used as directed

All efforts have been made to provide the most current, complete and accurate information on these permits, however we recommend that you confirm the details at the APVMA website portal: portal.apvma.gov.au/permits. If you believe you have had a non-performance or an adverse experience following use under a Minor Use Permit, please report it using the online portal found at portal.apvma.gov.au/aerpexternal/welcome.htm. A ‘non-performance’ is an unintended or unexpected effect on plants, plant products, animals, human beings or the environment, including injury, sensitivity reactions or lack of efficacy associated with the use of an agricultural chemical product(s) when used according to label (or permit) directions.
