

Arbour Grove has lots to offer all growing regions

Megan Crowhurst, Arbour Grove Nursery

Based in Woombye on the Sunshine Coast of Queensland, Arbour Grove Nursery is a proud product of many years of growing and breeding passionfruit. Owned and operated by Dave and Megan Crowhurst, the nursery specialises in tropical, sub-tropical, and rare fruit trees and vines that will thrive in their next destination.

These are the varieties of passionfruit that are currently on offer:

MISTY GEM

Known to be one of the tastiest of all passionfruit varieties, the pulp varies in colour from bright yellow to pumpkin orange and has many small, hard black seeds. The outer skin is true purple. The flavour is refreshing. Strong grafted variety grown in northern Queensland down to Bundaberg.

SWEETHEART

A very sweet fruit. A vibrant yellow pulp and deep purple skin, fruits are highly sought after due to the productivity of vines and are one of the highest yielding purple passionfruit selections. A commercial selection that has been in the industry for over two decades.

ED19

ED19 is a beautiful, sweet fruit with a dark purple shell. This sweetheart selection is a vigorous vine and a great producer in southeast Queensland and Northern NSW.

FLAMENCO

A medium fruit grown in all regions. A variety that can be ground harvested and vine picked at times. Heavy cropping fruit with beautiful purple shell and sweet taste. A grafted variety that has been grown now in the industry for over 10 years.

NOVA

This new selection has a sweet and tropical flavour. A grafted and vigorous growing vine that produces large and heavy pulp-filled sweet fruit. Growing for three years in southeast Queensland with great success.

SENSATION

This hybrid variety has good production with an exceptional winter crop. Produces huge levels of nice sized fruit. Light green coloured foliage with good vigour. Extremely sweet flavoured all year round, its paler colour identifies this outstanding passionfruit that people can't stop eating. Grown in southeast Queensland and New South Wales.

PANAMA PANDORA

An excellent selection that is vigorous. Fruit is purple/red skinned, large and sweet with a superb flavour. This is the leading variety grown in northern Queensland to southeast Queensland. Heavy cropping and self-pollinating.

To discuss which variety would suit your growing conditions or to find out more about the ordering process, please contact *Megan Crowhurst* :
